About Raha Green

A brand built on experience. Driven by purpose.

OUR FOUNDATION

Built on experience. Driven by opportunity.

Raha Energia is a new-generation trade house built by the family behind M.K. Polymers, on long entrepreneurial experience in international trade, sourcing, finance and commercial relationships.

Through that trade, we have learned that successful business is about more than moving products across borders. It is about understanding markets, anticipating demand, managing supply chains, building dependable relationships and creating lasting commercial value.

Raha Green is the first consumer-facing expression of that vision: established commercial experience, with a forward-looking approach to sustainable products and international markets.

35⁺

Years in trade, through M.K. Polymers

Container, many SKUs: mixed loads welcome

RAHA GREEN · THE BRAND

Ease, served.

Raha Green is our consumer-facing brand, beginning with the Eco Range: a curated line of bagasse and paper tableware sourced from established manufacturers in India.

The bagasse range is moulded from sugarcane bagasse, the natural fibre left after juice extraction: renewable, compostable and food-safe. The paper range uses food-grade kraft and white paper; the cups are PE-coated inside, and their sipper lids are plastic.

The Eco Range serves foodservice, hospitality, catering and distribution markets globally.

Why bagasse?

The world's most natural food-service material.

THE MATERIAL

Sugarcane bagasse: nature's answer to single-use plastic.

Bagasse is the fibrous residue that remains after sugarcane stalks are crushed to extract their juice. Instead of being discarded, this abundant agricultural by-product is transformed into strong, hygienic, fully compostable tableware. Every bagasse piece in the Raha Green Eco Range starts here, in the fields of India.

12

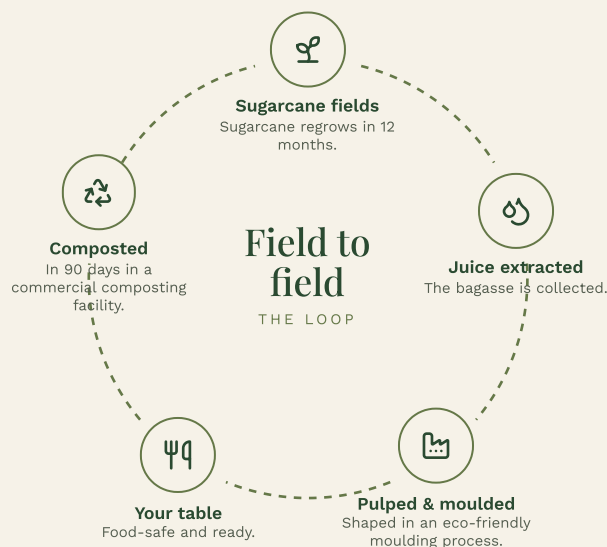

months for
sugarcane to
regrow

30

years for
some trees to
regrow

90

days to
compost in a
commercial
facility

THE LIFE CYCLE

From sugarcane field to compost, and back.

A closed loop: the field regrows in a year, the fibre that would have been burnt or dumped becomes your plate, and after service it returns to the soil in a commercial composting facility.

Composting times refer to commercial composting facilities. Home composting is slower and varies.

100% Compostable

Breaks down in 90 days in a commercial composting facility. Zero microplastics. Zero landfill.

Food-safe

No BPA. Safe for hot, cold, oily or liquid food. PFAS test report on file.

Microwave & Freezer Ready

Withstands -18°C to +120°C. Suitable for the full food-service workflow.

Oil & Water Resistant

No leaks, no soggy bases.

Renewable Resource

Sugarcane regrows in 12 months. Compare that to trees, which take up to 30 years.

Reduced Carbon Footprint

Converting bagasse into tableware avoids the fossil-fuel energy of plastic production. Less CO₂.

CLAMSHELLS

BOWLS

CUPS

BOWLS - LIDS

Sustainable solutions for every need.

The Raha Green Eco Range offers bagasse and paper tableware, with plastic sipper lids for the cups, for modern lifestyles and responsible businesses.

From everyday dining to takeaway and catering: 52 sizes and variants across 9 product families, ready to mix in a single container.

ROUND PLATES

6 sizes, 6" to 12", for every dining format.

COMPARTMENT PLATES

3 to 9 wells: plates and meal trays for full meals.

CLAMSHELLS

Hinged boxes, plain and 3-compartment, for takeaway.

BOWLS & CONTAINERS

Round bowls and a lidded, leak-resistant container.

PAPER CUPS

Single, double and ripple wall, 4 to 20 oz.

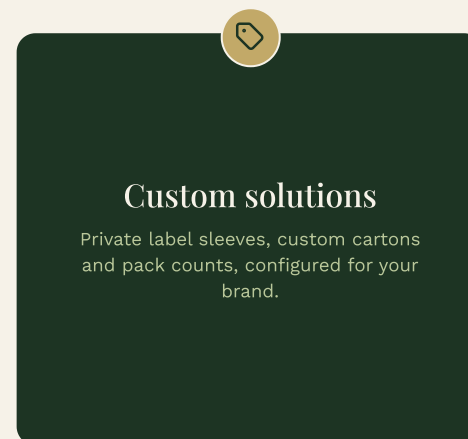

PAPER & SALAD BOWLS

Kraft or white, 200 to 1000 ml.

SIPPER LIDS

Lockable plastic lids, 80 and 90 mm, white or black.

Custom solutions

Private label sleeves, custom cartons and pack counts, configured for your brand.

Thoughtfully crafted. Naturally better.

Bagasse is renewable and commercially compostable. Paper is food-grade and built to hold; the cups are PE-coated inside.

- Natural & renewable
- Bagasse: commercially compostable

- Strong & reliable
- Food-grade paper, PE-coated cups

OUR CAPABILITIES

01

Mixed-Container Consolidation

One container, multiple SKUs, a simple Bill of Lading: your warehouse receives one dependable delivery.

02

Compliance & Documentation

Specifications, food-contact declarations, barcodes and batch records with every shipment.

03

Private Label & Custom Packaging

Your brand on the pack sleeve and custom cartons, for suitable products and order sizes.

Raha Green

Ease, served.

Raha Green is our promise to deliver products that care for people and the planet.
With innovation, responsibility and excellence at our core, we aim to build a sustainable future, one product at a time.

SUSTAINABLE BY NATURE

Starting with Raha Green tableware, made from sugarcane bagasse, a renewable resource.

RELIABLE BY DESIGN

Clear specifications, dependable supply and practical commercial execution.

TRUSTED BY PARTNERS

Serving businesses globally with integrity and commitment.

FOCUSED ON TOMORROW

Carrying our trade experience into new markets and products.
